USE

clinic, training center, office - whole floor

Diagram based on working drawings, not a survey. Open plan: a 6 000 x 6 000 mm column grid with a 6 600 mm end bay and the stair and lift core. Areas shown in blue belong to the mahalla committee and are not offered for lease.

Use cases

Clinic

floors 2-5

A 3.60 m clear height lets you run ventilation and medical gases above a suspended ceiling and still keep about three metres clear. The partition-free floor plate can be laid out for consulting and diagnostic rooms to licensing requirements. An established medical and education cluster is nearby.

Training center

floors 3-5

A 330.1 m² floor plate with no partitions divides into classrooms of any size. The dense residential neighbourhood provides a steady flow of students, with 35 to 40 parking spaces nearby.

Office

floors 2-5 or all floors

A headquarters with your own signage on the facade. One floor, one company, no corridor neighbours. Access to the shared rooftop terrace.

Service and retail

Floor 1

The ground floor with a 4.05 m ceiling and an arcaded stylobate on the street front: a pharmacy, cafe, bank branch or showroom. Shopfronts face the street with a separate entrance.

Deal scenarios

Lease

Flexible-use premises for offices, clinics, training centers or services. Terms are discussed per unit: area, duration, entry conditions.

Purchase

Individual floors or all floors together are available for purchase.

Lease with option to buy

We also work on a combined basis: enter as a tenant, decide on purchase later. Terms are structured around your specific situation.

LOCATION

Qoraqamish, street front by Victory Park

27a Gozalbog Street, Olmazor district, Tashkent

Coordinates: 41.35644, 69.22575

Street front at the Keles road junction, opposite Victory Park. The dense Qoraqamish residential neighbourhood provides steady daytime traffic, with parking for 35 to 40 cars nearby.

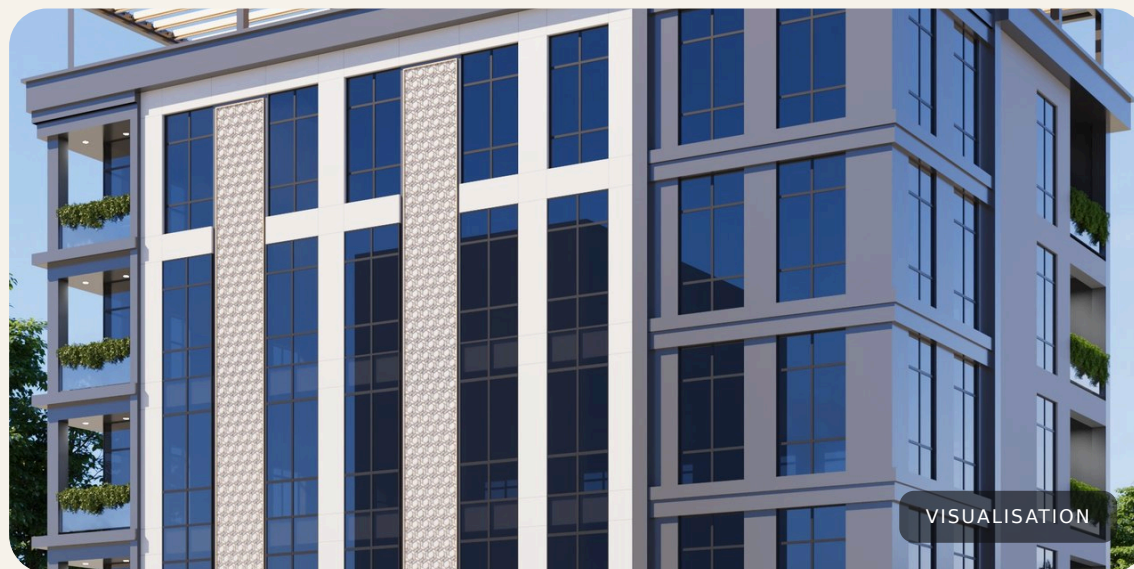

VISUALISATIONS

Exterior

A white facade with a brass mesh and an arcaded stylobate, planted balconies and evening architectural lighting. The roof carries an open terrace with a pergola, shared by tenants. The facade provides space for tenant signage.

Finishing works underway: facade and interiors.
Site visits by arrangement.

All images are project visualisations and do not constitute a public offer.

GALABA

Shall we discuss your format?

We reply within the day - area, term, entry terms.
