USE

offices, a representative office, an IT company

Plan per the design documentation. Open plan with columns on a 5-5-6-5-5 by 6-6-6 grid; restrooms and lift lobby in the core.

Who the building suits

A company on one floor

337.9 m², floors 2 to 7

A typical floor with no internal load-bearing walls: the layout follows the company structure, from cellular to open plan. Restrooms and a lift lobby on the floor.

Ground floor for footfall

294.1 m², 4.2 m height

A separate street entrance and 4.2 m floor height: a bank, pharmacy, coffee shop or client office serving both the building's tenants and passers-by.

The whole building

2,575.4 m² GLA

Eight levels for a single organisation: a headquarters, a government body or a medical centre with its own entrance, signage and full control of the building.

An investor

buy a floor or the building

The building is designed for leasing: identical typical floors can be bought floor by floor or as a whole and then let to tenants.

Deal structure

Lease

A whole floor or several floors. Rent and terms are discussed individually.

Purchase

Purchase of a single floor or the entire building. Documentation and the payment schedule are agreed deal by deal.

Lease with option to buy

A tenant moves in and buys the space later, with part of the payments credited against the price.

LOCATION

Bogishamol, opposite the Botanical Garden

Tashkent, Yunusabad district, 151 Bogishamol Street

BY CAR

· Coordinates: 41.348614, 69.316418

The building fronts Bogishamol Street opposite the Botanical Garden, inside an established residential part of Yunusabad: about 8,800 people live within a fifteen-minute walk and almost 18,000 within twenty. The nearest mahalla centres are Bogibuston, Otchopar-2 and Obod.

First line of Taxtapul Street, the Small Ring Road access is adjacent. Built for clients arriving by car: parking at the door and an underground level.

VISUALISATIONS

Exterior and section

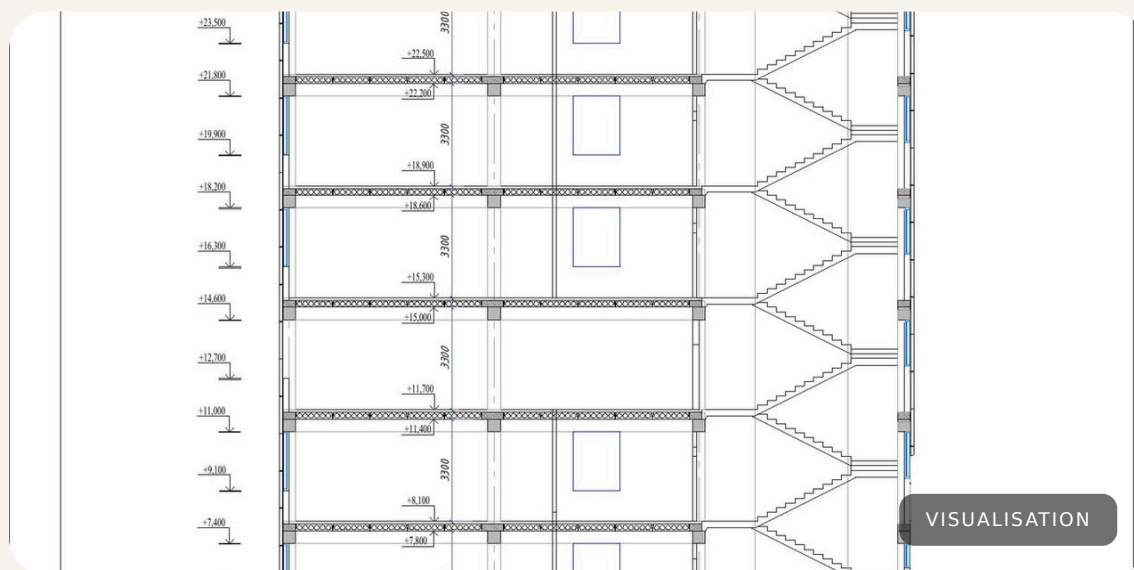

A glazed facade with bronze piers, a 4.2 m ground floor for client-facing uses and an entrance forecourt. The section shows eight levels: a basement at -3.600 and seven floors up to +25.800.

The building is at design stage. The design documentation and floor plans are available on request, and floors can already be reserved.

All images are project visualisations and do not constitute a public offer.
